

## Are you NBN ready?

With NBN being rolled out across Australia, all the existing copper lines will be replaced. All lift emergency phones that rely on the NBN may not operate reliably, and not at all if there is a power failure.

A GSM SIM unit allows for lift phones to operate without a landline and in the event of a power failure.

# Upgrade from \$995 + GST \*

Sim capacity	Single SIM
GSM compatibility SIM CARD	3G GSM Requires a 3G compatible GSM SIM card (not supplied)
Operation voltage	12V DC (plug pack supplied)
Battery backup	Internal rechargeable battery (included)
Battery backup time max	2-3 hours
Power consumption	300mA
Antenna	3dB whip with magnetic base and 2.9m cable length

Single SIM

\*Please note \$995 plus GST is only applicable for residential lifts, all Limited Mobility and Commercial Lifts require a dual SIM unit which retails at \$2000 plus GST.
